## Ziegler Brandweertechneik signs agreement with VRHM for the maintenance of 67 firefighting vehicles

Winschoten, November 2021 – ZIEGLER received an order for the preventive maintenance of 67 firefighting vehicles of the Safety Region Hollands-Midden (VRHM). The framework agreement has been concluded for 5 years with an option for seven extensions of one year each.

In addition to all the firefighting vehicles of various manufacturers, ZIEGLER will also maintain and inspect the emergency vehicles, logistics vehicles, hook trucks, training vehicles, foam firefighting vehicles and personnel material vehicles. This is an all-in maintenance concept. That means, that in addition to the maintenance of the firefighting part, ZIEGLER will also direct the representatives for maintenance of the basic chassis.

Ziegler Brandweertechneik, whose main service location is in Winschoten, also has service locations in Breda and Eindhoven.

"We are very happy that ZIEGLER continues the existing good cooperation with the Safety Region Hollands-Midden. It is a pleasure for us to be able to maintain a large part of VRHM's heavier vehicles and we are looking forward to a good collaboration. Of course, we strive for the most reliable fleet for VRHM", says Mélaro Kraan, Account Manager After Sales at Ziegler Brandweertechneik.

### About the Safety region Hollands-Midden

The VRHM covers the northern part of the province of South-Holland and stretches from the Duin- en Bollenstreek in the North through het Groene Hart to the Krimpenerwaard in the South.

The VRHM is a collaboration of municipalities in the Hollands-Midden region. The tasks of the VRHM are laid down in the joint arrangement.

The Hollands-Midden fire department handles approximately 8,000 calls per year. Half of the incident reports originate from the urban area around Leiden, including Duin- en Bollenstreek.
