ZIEGLER hands over the first three of six HLF 10 to the Baden-Württemberg State Fire Brigade School

Giengen, May 2023 – Albert Ziegler GmbH manufactured a total of six HLF 10 for the State Fire Brigade School in Bruchsal. On May 31st, 2023 the first 3 vehicles were accepted and handed over.

The other three vehicles were taken over on June 13th, 2023. Together with the recently delivered RW, the State Fire Brigade School in Baden-Württemberg now has 7 new ZIEGLER vehicles in use for basic and advanced training.

The design and the operating concept are each based on the latest generations of ALPAS and Z-Control. The loads of the 6 HLF 10 are also supplied by ZIEGLER.

Thus, everything from the chassis to the load comes from a single source.

Simple, user-friendly and reliable technology thanks to Z-Control of the latest generation will make training easier for the instructors, but also for the firefighters, and contribute to operational safety. As a result, the diverse operations of the fire departments can be mastered well later on.

Technical data of the can be found on the next page, further pictures can be found here: <https://www.ziegler.de/en/news-info/three-ziegler-hlf-10-to-the-landesfeuerweherschule-bruchsal>
