## ZIEGLER delivers first tanker with new ALPAS and new Z-Control

Giengen, April 29<sup>th</sup>, 2021 – ZIEGLER has delivered the first tanker, a TLF 4000, with the new ALPAS superstructure and the new Z-Control. The Gangelt fire department is the first customer to receive a tanker with ALPAS and Z-Control of the latest generations.

ALPAS of the latest generation offers up to 30 % less weight compared to the previous superstructure as well as up to 10 % more space volume due to protected arrangement of the shutters on the roof. You can find more information about ALPAS of the latest generation here: <https://www.ziegler.de/the-new-alpas>.

The new Z-Control also offers exciting innovations: The user guidance is intuitive and self-explanatory, which makes the pump control even easier and usable for everyone. An assistance system for warnings and errors is also built in. More information about the new Z-Control can be found here:

<https://www.ziegler.de/the-new-z-control>

The vehicle also has a 6,000-liter water tank, a 500 + 200-liter foam tank, an Alco APF 3-C electric roof-turret with lift and operation via Z-Control as well as a ZIEGLER ZW 800 electric bumper turret, also operated via Z-Control and has a total weight of less than 18 tons.

You can find a detailed technical description of the vehicles on the following page. More pictures of the vehicle are available in the download area.

Hans Mayr (Head of Sales Germany) officially hands over the vehicle to the Gangelt fire department
